Dear Parents

Greetings for the day!

Pupils have to be evaluated by their teachers to see whether they make progress or not. So exams are essential because it test students' skills and they may measure people's abilities and how much they have learned. Many of the students' important qualities in life are formed and built up through exams. Among these are hard work, patience, creativeness, leadership, sense of pride and so on. It is true that through exams, these qualities are formed and tested and thus helping students grow up, prove their abilities and overcome their weaknesses in order to be successful in life.

Activities are integral part of student's academic life and they help in overall development of personality. By keeping that in our mind our annual function is scheduled for the month of December so we have preponed our unit test in the third week of November. The date sheet for the same is given below:
