

Kaushalya World School

KWS/15-16/008

06.04.15

Dear Parent

Your child is about to enter a new phase wherein the choices would determine the course of life. From here onwards, they will graduate from a broad-spectrum of topics from all disciplines and venture into the area of their interest. With the transformation in the pattern of the educational curriculum, there will also be a transformation in the pattern of learning. In this phase of their school life, the extrinsic motivation will be limited and the students will be expected to practice self inspired research based learning.

We understand that this new chapter of their life would seem obscure initially and would require occasional guidance and support. In order to familiarize and equip the students with the skills required to smoothen their journey for the future, we are going to begin the session for **class XI** from **Friday, April 10, 2015**.

The students are expected to be in the school premises as per the regular school timings in the school uniform. We hope to see cooperation from your end in our commitment to carve a secure tomorrow for our students.

Kindest regards

Educationally yours

Mukta Misra
(Director Principal)
